

E6 CNC

This is the big boy of CNC work centers!
It has amazing quality, it includes 9 vertical drills,
6 horizontal drills, a saw blade for grooving, 8 position auto
tool changer, Italian HSD 9.6kw router. Also includes double
loading so while the machine is working on the left you can load on the
right and visa versa, the workable size is 3050x1250x80mm,
with its heavy construction and goose neck support it is a must have
in a furniture making factory!
